Subject:	2017/2018 – Samsung Tablet Rollout for Sydney Branch Clubs

Dear Clubs,

Sydney Branch has recently taken delivery of new Samsung Tablets which have been provided by SLSNSW for all Surf Clubs. The tablets are intended to provide Surf Clubs with access to technology to enable patrols to move towards a more efficient and paperless system.

From the beginning of November, SLSS Clubs should implement the use of the Samsung Tablets on patrols.

Clubs are asked to refer to SLSNSW Circular 3516 (attached) for more detail on the Samsung Tablets, particularly please review the Implementation Plan which details how the transition to a paperless system will take place.

Clubs are reminded that they are still required to complete all necessary paperwork (Patrol and Incident Logs) until such time as the updated software is provided.

Delivery of the new tablets will take place during October 2017 to Clubs, and will be managed by your Area Lifesaving Coordinator, who will contact clubs individually to arrange delivery and demonstration of the new tablet devices.

Questions in relation to the roll-out of the new Samsung Tablets should be directed to the undersigned (Branch Lifesaving Manager) in the first instance.

Regards,

Matt Spooner
Lifesaving Manager
