

SLSA Age Manager Award

Part 1

Face to Face Presentation

OR

SLSA on-line theory course via lifesaving online Face to Face is

recommended by SLSS

- Clubs can deliver the course in-house, as long as it is by an experienced Age Manager who has the Award does not need to be a Trainer.
 Session takes about 2 3 hours.
- Branch will conduct and deliver courses for clubs to attend on mass.
- Paperwork required for participants Part A face to face attendance sign on sheet, SLSA Age Managers Course Assessment Portfolio vs May 2017 (one per participant)

Part 2

Theory session

- Delivered at your Club looking at the technical/surf sports set up of a regular Sunday.
- If you are a Level
 1 Official you do
 not need to do
 this section you
 will be RPI 'd.

Part 3

Mentoring session at the beach

- For experienced people who have worked on the beach for a while then the Club can sign off knowing you are capable at this job.
- For new people the club will need to set up some mentoring with an experience Age Manager.

All paperwork is signed off by Club

Club creates Surfguard New award assessment request for all successful new SLSA Age Managers – submits and processes results.

- Form 14 (generated from Surfguard) for all candidates
- Page 18 from the Assessment Portfolio – Technical Session
- Page 19 from the Assessment Portfolio – Technical session endorsement criteria
- Page 21 from the Assessment Portfolio - On the beach mentoring session endorsement criteria
- Page 22 & 23 from the Assessment Portfolio – Third Party Form
- Page 24 Course Evaluation Form (or the Club can hold this page on file)
- Copy of Attendance sheet from the face to face presentation if delivered by Club.

Club sends all paperwork to Branch Office

lifesaving@surflifesavingsydnev.com.au

Branch Office will then complete the next Surfguard step to 'award allocation' status where SLSNSW finalises the Surfguard award process

- No award certificate is issued by SLSNSW for this SLSA Award
- The qualification is recorded on the members award record in Surfguard.
