

## MEMORANDUM

<b>To</b>	<b>Club Captains</b>
<b>From</b>	<b>Acting Director of Lifesaving and Education</b>
<b>CC</b>	<b>BOM, LSEC, Club Secretaries</b>
<b>Date</b>	<b>Friday, 8 October 2021</b>
<b>Pages</b>	<b>1</b>
<b>Subject</b>	<b>Patrol Operations Manual (POM) Template 21-22</b>

Good Afternoon

Over recent months, the Lifesaving team have been reviewing the current SLSNSW POMs document. This review was to produce a more workable document for the Clubs focusing on procedures particularly around radios, sign on/off with the patrol operations app and general risk management

We hope that the Clubs will find the attached template easy to work with and edit to make relevant to your beach. This might include specific locations eg. Shark Island, Wiley's Baths etc, access tracks for emergency services or other local knowledge.

We would ask you to complete your Club copy of the POMs for season 21-22 and include it on patrol and forward an electronic version to Branch Office as soon as possible.

Any queries you may have please reach out in the first instance to your Area Life Saving Coordinator
