

MEMORANDUM

To	Club Captains/Directors of Lifesaving
From	Director Lifesaving & Support Operations Manager Lifesaving
CC	Club Presidents, Secretaries, BOM, LSOC
Date	Friday 4 March 2022
Pages	1
Subject	Patrols this weekend

Good Morning All

Information from SLSNSW suggests we can look forward to better weather on Saturday. However, with rain forecast yet again, Foul Weather Patrols are more than likely.

Water quality on our beaches is deplorable. Combined with existing debris in the ocean, any run off from rivers is likely to be toxic. We would highly advise against entering the water for swimming.

With beach patronage expected to be lower than normal and the anticipated Foul Weather Patrols in effect, please feel free to manage your Patrol numbers accordingly.

If any club believes they will either struggle or will not be able to meet minimum LSA due to flooding of access paths or Boatsheds / Patrol room, please advise me ASAP. We can apply for an LSA Exemption from SLSNSW until your club is able to resume normal Patrol Capability.

Kind Regards

Scott Muir
Director Lifesaving & Support Operations

Michael Bonnici
Manager Lifesaving
