Gear Inspection 2022	Tuesday 5 July 2022	03/22-23

To Clubs, Presidents, Secretaries, Captains

From Manager Lifesaving

CC BOM, LSOC, EC, SSC, JDC, MSC

Welcome back for another season and congratulations to all newly appointed Club officers and returning Club officers for season 2022/23.

In preparation for season 2022/23, SLSNSW have verbally informed Surf Life Saving Sydney (with a formal circular to follow) that Gear Inspection will be undertaken by Club officers once again. The only change that is expected is that all IRB's including motors will be inspected by Branch officials, with a more thorough check to be undertaken compared to previous gear inspections.

In addition to this, Surf Life Saving Sydney will mandate that all radios be inspected by Branch officials. Since COVID, there has been a lot of confusion as to radio profiles and settings. The recent Circular 3716 (<https://www.surflifesaving.com.au/wp-content/uploads/sites/2/2022/06/Circular-3716-2022-Radio-Maintenance-Circular.pdf>) issued by SLSNSW outlines the standards and requirements around radios for this up and coming season, which will be verified for all radios at Gear Inspection.

Obviously specific details around the above and other gear lists will be released once the formal gear inspection circular is issued by SLSNSW. It was agreed that this Circular be issued as an update to keep all Clubs informed with suitable notice given how quickly the season is approaching and to avoid supply chain issues with radios.
