### Major Development Priorities for SLS Sydney Board 2022/23

The following priorities have been identifed for Board focus at the Branches annual planning day and will be the focus during the 2022/23 season.

#### 1. Communicate with our stakeholders better

We'll develop more targeted communication processes using coordinated technologies to allow officers, members and external stakeholders to have better access to information relevant to them and to decrease information that does not relate to them.

### 2. Develop a Branch wide Culture of Safety

We'll focus on our value of 'Safety First' by developing activity that enhance safe behaviours across our membership.

### 3. Shift our leadership to a more strategic focus

We'll enhance our practices by focusing more on better leadership practices. This will include enhancing our business calendar, Board agenda, Branch Council involvement, action plans, dashboard, gender equity and greater understanding of community needs.

### 4. Drive our activity and club support through professional support

Protect our volunteers from burnout and support projects by increased professional support. We'll aim to reduce the branch reliance on financial support from clubs.

#### 5. Capture our corporate knowledge to provide clarity to future officers

Clearly define our ways of working through the capture of ways of working, operations manuals, project plans and action plans.
