<b>Pages</b>	<b>3</b>
<b>Subject</b>	<b>Mentors for TAFs Season 23-24</b>

Dear All

As re-introduced last season by SLSNSW, the mentoring process is to improve and maintain the high standards of TAFs using mentoring skills to guide them through Academy policies, procedures, and best practice principles.

Branch office has today reported from Surfguard by Club the TAF mentors as allocated by Clubs from last season. (refer list on page 2 & 3 of this memo)

We would ask you to please review the TAF mentors for your club and advise Branch office by return email if you wish for them to be reallocated this status for season 23-24. Additionally, if your Club has names of new TAF mentors, please also submit their name to Branch office by return email.

We would recommend that each club where possible endorses sufficient mentors per award to support your members coming through the TAF process. The position description for the role can be found at the following link on SLSNSW website which all Club CTOs and TAFs should have access to. If you cannot access this file, please let the office know and I will email you the PDF.
